Career Objective

An aspiring software development engineer with strong foundations in Java, Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, and Computer Science fundamentals. Experience in developing scalable backend and full-stack applications using Spring Boot, REST APIs, JPA, and MySQL. Developing software engineering and problem-solving skills to build reliable, customer-focused solutions.

Education

B.Tech in Computer Science and Engineering Prasad V. Potluri Siddhartha Institute of Technology CGPA: 7.93/10	2023–2027
Intermediate (MPC) Narayana Junior College, Vijayawada Percentage: 94%	2021–2023
Secondary School (SSC) Sri Chaitanya School Percentage: 100%	2020–2021

Technical Skills

Programming: Java, C, Python, Data Structures and Algorithms
Frontend: React, HTML, CSS, Bootstrap
Backend: Spring Boot, Spring MVC, Spring Data JPA
Core CS: OOPS, DBMS, Operating Systems, Computer Networks
Framework: Spring
Database: MySQL
Tools: Git, GitHub, Maven, VS Code

Projects

Library Management System – Java Full Stack Project

Tech Stack: Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, React, REST API, Bootstrap

- Developed a full-stack Library Management System to manage books, authors, members, and borrowing/return transactions.
- Developed RESTful APIs using Spring Boot and React following layered MVC architecture (Controller, Service, Repository).
- Designed relational MySQL database schema using Spring Data JPA and Hibernate for ORM mapping and data integrity
- Implemented automated book inventory tracking, issue/return logic, data validation, and real-time dashboard analytics.

Calorie Burnt Prediction

Tech Stack: Python, Scikit-Learn, Pandas, NumPy, SciPy, Matplotlib

- Predicts calories burned using biometrics (age, height, weight) and vital data from the workout (heart rate, duration, temperature).
- Cleaned and normalized 15,000 dataset records using Z-score outlier filtering and MinMaxScaler.
- Implemented a K-Nearest Neighbors (KNN) Regressor model optimized via 30-fold cross-validation.
- Achieved an R^2 score of 0.9952 with a low prediction error of 4.28 kcal.

Certifications

- Fundamentals of Artificial Intelligence – NPTEL (IIT Guwahati)
- Problem Solving Using C – BYTS & PVPSIT
- Programming in Java — Infosys Springboard
- Java Spring Training Courses — Infosys Springboard

Achievements

- Participated in AVISHKAR 2026, a national-level hackathon, collaborating with a team to develop innovative solutions in a competitive environment.
- Participated in technical quizzes/coding competitions conducted through colleges or online platforms.

Extra-Curricular Activities

- Active participant in college sports.
- Participated in college technical events and coding competitions.

Coding Profiles

- LeetCode
- CodeChef
